INTERNO SERIJA

Enterijerska aluminijumska vrata u kombinaciji sa teleskopik ramom, dizajnirana su u skladu sa visokim enterijerkim zahtevima i izrađena od posebno projektovanih profila.

Zahvaljujući teleskopik aluminijumskom ramu, vrata je moguće implementirati na širinu zida od 100 do 225 mm. Estetske pokrivne lajsne dodatno čuvaju ivice zida, što pored estetike ima i praktičnu primenu. Sam dizajn teleskopik rama dozvoljava rotaciju krila do 180 stepeni.

Poseban detalj čini aluminijumski okvir krila. Sve češći zahtevi od strane projektanata za slim profilima, nateralo nas je da isprojektujemo okvir krila sa izuzetno malom površinom vidljivog aluminijuma.

Pored svega navedenog, postoji mogućnost izrade krila sa drvenom ili staklenom ispunom.
